Subject Index
Volume 43

Adaptation, in mineral absorption tests, 444
Adolescents, female
  dietary fat intake, 530
  sodium and potassium intake, 470
  vitamin B_6 status, 599
Alanine aminotransferase, coenzyme stimulation of, in adolescent females, 599
Alcoholic hepatitis, prognosis, protein-calorie malnutrition and, 213
Alcoholism, plasma lipids and apolipoproteins in, 521
All-rac-α-tocopherol, plasma α and γ tocopherol levels and, 382
Amenorrhea, bone mineral status and, in runners, 910
American Society for Clinical Nutrition Annual Meeting, 645
Amino acids
  kinetics
    leucine, 770
    lysine, 787
    threonine, 795
    valine, 781
  serum levels, in endemic goiter, 310
Anemia, during pregnancy, malaria and, 803
Apolipoproteins
  in alcoholism, 521
  artificial fat emulsions and, 225
Aspartame, consumer complaints, evaluation of, 464
Atherosclerosis, fish oil consumption and, 566

Beans, *see* Legumes
Biliary lipids
  dietary manipulation and, 239
  lecithin feeding and, 98
Bile acids, kinetics, dietary manipulation and, 239
Biotin deficiency, lipid metabolism and (rat), 831
Body composition
  of maintenance hemodialysis patients, 946
  overfeeding and, in twins, 723
  study methods for, 325
Body density, skinfold thickness equations, validity in formerly obese adults, 128
Body fat(ness)
  distribution, during glucocorticoid therapy and during dialysis, 758
  estimation in formerly obese, skinfold thickness equations, 128
  in females, maturational timing and, 879
  morphology, overfeeding and, in twins, 723
Bone mass
  diet and, in amenorrheic runners, 910
  serum calcidiol levels and, 621
Bone mineralization
  diet and, in amenorrheic runners, 910
  in females, dietary calcium and phosphorus and, 538
Book reviews
  Dietary Fibre, Fibre-depleted Foods and Disease, H Trowell et al (eds.), 859
  Nutrition Education in US Medical Schools, Committee on Nutrition in Medical Education, Food and Nutrition Board, Commission on Life Sciences, National Research Council, 643
  Nutrition and Immunity, ME Gershwin et al (eds.), 333
Brain, function of, trace elements and, 293
Bulgur, glycemic response to, in diabetics, 516

Calcidiol, serum, parameters related to, 621
Calcium
  absorption
    in middle-aged females, 299
    post menopause, sorbitol and glucose and, 72
  dietary
    bone mineralization in females and, 538
    colon cancer and, 306
  fecal excretion, phosphorus and, 844
  in human milk, during extended lactation, 495
Calorie consumption, smoking and, 486
Campesterol, cholesterol absorption and, 92
Carbohydrates, dietary
  glucose tolerance indices and, 151
  glycemic response to, beans vs potatoes, 30
  US vs Israeli population study, 604
Carbonyl iron, bioavailability in humans, 59
Cardiac rhythm, in obese males on very low calorie diets, 272
Cardiovascular disease, fish oil consumption and, 566
Carnitine
  dietary, skeletal muscle and plasma carnitine concentration and, 234
  erythrocyte and plasma levels, in preterm infant, 77
  plasma levels
    dietary carnitine and, 234
    in patients on home parenteral nutrition, 85
Ceruloplasmin, serum, in breast-feeding infant, 251
Childhood
  cystic fibrosis, nutritional rehabilitation, 732
  Giardia infection, 395
  incremental growth charts, 711
  iron deficiency and cognitive function, 555
  maintenance energy requirements, 870
  vitamin A status of Brazilian children, 852
    assessment methods, 940
Cholesterol
  absorption, plant sterols and, 92
  chylomicron, plasma clearance and hepatic uptake of (rat), 429
  dietary, US vs Israeli population study, 604
  high-density lipoprotein
    in alcoholism, 521
    smoking cessation and, 486

Abstracts submitted to the 26th Annual Meeting of AJCN were published on pages 656–710 of the April issue of AJCN. Authors and subjects are not indexed here.

© 1986 American Society for Clinical Nutrition

Cholesterol—*continued*
lipoprotein, fish oil consumption and, 752
metabolism, lecithin feeding and, 98
synthesis, plant sterols and, 92
tissue content, biotin deficiency/supplementation and (rat), 831
Choline, plasma, in TPN patients, 219
Chylomicrons, zinc deficiency and (rat), 429
Cigarette smoking, cessation of, effect on weight gain, metabolic rate, calorie consumption and blood lipids, 486
Cobalamin, during pregnancy, malaria and, 803
Cobalt, brain function and, 293
Cognitive function, in infants and preschoolers, iron deficiency and, 555
Colon cancer, dietary fat, phosphorus and calcium and, in Hawaiian-Japanese males, 306
Copper
brain function and, 293
deficiency, plasma enkephalins in, 42
intestinal, post resection (rat), 185
serum, in breast-feeding infants, 251
status, in obese males on very low calorie diets, 272
C-peptide, urinary excretion, diet and, 350
Creatinine, urinary excretion, diet and, 350
Cysteine, iron absorption and, 68
Cystic fibrosis, nutritional rehabilitation, 732

Data quality control, longitudinal study of dietary calcium and phosphorus and bone mineralization in females, 538
Diabetes mellitus
genetic, zinc nutrition in, cell-mediated immunity and (mice), 263
glycemic response to wheat and rye products, 516
noninsulin-dependent
dietary fiber and glucose and lipid metabolism in, 16
erythrocyte insulin receptor affinity in, 160
exercise potentiation of thermic effect of insulin in, 884
metabolic effect of bean vs potato meal, 30
Dialysis, *see also* Hemodialysis
long-term, body fat distribution and, 758
Diet
and bile acid kinetics and biliary lipid secretion in UDCA-treated gallstone patient, 239
bone mineral status and, in amenorrheic runners, 910
iron fortification, 59
modification, platelet function and, 136
reducing, zinc and copper status during, 272
starch intake and fecal bulking, 210
urinary C-peptide and creatinine excretion and, 350
vegetarian, gonadotropin release and meat consumption in, 37

Editorial
Analysis of data from a complex sample: Health Examination Surveys, 839
Diet and dental caries: a sceptical view, 969
Food items, specific nutrients and "dietary" risk, 477
Education
human nutrition research, 325
nutrition knowledge of senior medical students, 959

β-Endorphins, in copper deficiency, 42
Energy content, of test meal, thermic effect of food and, 863
Energy expenditure
ephedrine/methylxanthine mixtures and (mouse), 388
exercise and, 884
Energy metabolism, in lean vs moderately obese females, enteral vs parenteral nutrition, 194
Energy requirement, maintenance, in children, 870
Enkephalins, copper deficiency and, 42
Enzyme(s), intestinal activity
dietary regulation of, 891
post resection (rat), 185
Ephedrine-methylxanthine mixtures, thermogenic effects (mouse), 388
Erythrocyte(s)
alanine aminotransferase activity, coenzyme stimulation of, in adolescent females, 599
carnitine levels, in preterm infants, 77
insulin binding to, dietary sugars and, 151
insulin receptor affinity, in hyperinsulinemia, 160
Ethanol, intestinal hydrolysis of pyridoxal phosphate and (rat), 374
Exercise
diet and bone mineral status and, in amenorrheic runners, 910
intensity, thermic effect of food and, 863
iron status and, 456
thermic effect of insulin and, 884
vitamin B_6 utilization and, 816

Fat(s)
body, *see* Body fat(ness)
dietary intake
in adolescent females, 530
colon cancer and, 306
restriction of, VLDL composition and, 903
US vs Israeli population study, 604
Fatty acids
absorption, in premature infants, 745
dietary intake
of adolescent females, 530
platelet function and, 136
n-3 polyunsaturated
lipoprotein cholesterol and, 752
risk of cardiovascular disease and, 566
FDA, passive surveillance of consumer complaints on food additives, 464
Feces
bulking, dietary starch and, 210
constituents, wholemeal bread and, 343
endogenous calcium excretion, phosphorus and, 844
weight, wholemeal bread and, 343
Fiber, dietary
and carbohydrate-induced lipemia, 419
digestion of, breath hydrogen and methane as indicators, 898
fecal bulking and, 210
glycemic response, beans vs potatoes, 30
lipid and glucose metabolism and, in noninsulin-dependent diabetes, 16
wholemeal bread effects on fecal weight, transit time, and fecal constituents, 343

Fish oil, dietary
cholesterol-induced rise in lipoprotein cholesterol and, 752
cardiovascular disease and, 566
Fluoridation of drinking water, 480
Folacin, in human milk, during extended lactation, 495
Folic acid
intestinal transport, in presence of zinc, 258
during pregnancy, malaria and, 803
Food additives, evaluation of consumer complaints, 464
Food, Drug and Cosmetic Act, health claims on food labels, 629
Food labels, health claims on, 629
Formula feeding
iron absorption in infants, 917
test-weighing estimate of milk volume intake, 367
vitamin B_6 intake, 7

Gallstones, ursodeoxycholic acid for, dietary manipulation and, 239
Genotype, and changes in body composition and fat morphology following overfeeding, 723
Giardia infection, in infants and children, 395
Glucoamylase, intestinal, dietary regulation of, 891
Glucocorticoid therapy, body fat distribution and, 758
Glucose
-induced thermogenesis, in Graves' disease, 738
metabolism, in noninsulin-dependent diabetes, dietary fiber and, 16
oxidation rate, bean vs potato meal and, 30
plasma levels
bean vs potato meal and, 30
mixed meal and, 167
snack foods and, 335
postmenopausal calcium absorption and, 72
Glucose polymers, intestinal glucohydrolases and, 891
Glucose tolerance, sugars and, 151
Glutamate, plasma, after MSG loading, sucrose ingestion and, 510
Glutathione peroxidase deficiency, long-term parenteral nutrition and, 549
Glycemic index
blood glucose response to mixed meals, 167
response to wheat and rye products, in diabetics, 516
Goiter, endemic, serum amino acids in, 310
Gonadotropin, release of, meat supplement in vegetarian female and, 37
Graves' disease, glucose-induced thermogenesis, 738
Growth and development
Giardia infection and, 395
incremental growth charts, 711
iron deficiency and cognitive function, 555
maintenance energy requirement for children, 870
and protein quality of soy vs milk (*Cebus* monkey), 112
vitamin B_6 intake in young infants and, 7
Growth retardation, giardiasis and, 395

Health Examination Surveys, data analysis, 839
Hemodialysis, maintenance, nutritional status of patient, 946
Hepatitis, alcoholic, 213
Homocystine, in endemic goiter, 310
Hydrogen breath test, soy fiber digestion and, 898
Hyperinsulinemia, erythrocyte insulin receptor affinity in, 160

  exercise potentiation of thermic effect of insulin in, 884
  in females, maturational timing and, 879
  thermogenic effects of ephedrine/methylxanthine mixtures in (mouse), 388
Overfeeding, body composition and fat morphology and, in twins, 723

Parenteral nutrition
  enteral vs, and energy metabolism in lean vs moderately obese females, 194
  home (HPN), plasma carnitine levels, 85
  protein metabolism in neonate and, 108
  proximal muscle weakness and selenium deficiency and, 549
  total (TPN), plasma choline concentrations and, 219
Parity, and folacin concentrations in malaria during pregnancy, 803
Parotid saliva, zinc levels, 47
Peptides, cysteine-containing, iron absorption and, 68

Phosphorus
dietary
and bone mineralization in females, 538
colon cancer and, 306
endogenous fecal calcium excretion and, 844
Plant sterols, cholesterol absorption and, 92
Platelets
aggregation, vitamin B_6 supplementation and, 825
fish oil consumption and, 566
function, dietary modification and, 136
Polyenylphosphatidylcholine, *see* Lecithin
n-3 Polyunsaturated fatty acids, 566, 752
Potassium, dietary intake, measurement of, 470
Prednisone therapy, body fat distribution and, 758
Pregnancy
folacin concentration during, malaria and, 803
nutritional supplementation for Thai females, 931
taste changes during, 414
Prostacyclin, fish oil consumption and, 566
Prostaglandins, fish oil consumption and, 566
Protein
content of test meal, thermic effect of food and, 863
dietary intake
and α-ketoisocaproate utilization for protein synthesis (rat), 504
skeletal muscle and plasma carnitine intake and, 234
metabolism
endemic goiter and, 310
in neonate, IV vs oral feedings and, 108
quality, soy vs milk, in infant *Cebus* monkey, 112
Protein-calorie malnutrition, and alcoholic hepatitis, 213
Protein-energy malnutrition, thyroid hormones and carrier protein interrelationships in, 406
Pumpernickel bread, glycemic response to, in diabetics, 516
Pyridoxal phosphate
intestinal hydrolysis, ethanol and (rat), 374
platelet aggregation and, 825
plasma levels
in adolescent females, 599
in infants, vitamin B_6 intake and, 7

Radioisotopes, in human nutrition studies, 325
Rapid dark-adaptation test, vitamin A status assessment, 940
Resolutions, fluoridation of drinking water, 480
Retinoyl β-glucuronide, in human blood, 481
Riboflavin supplementation, in small premature infants, 1
Rose bengal staining test, vitamin A status assessment, 940
RRR-α-tocopheryl acetate, plasma α and γ tocopherol levels and, 382
Rye products, glycemic response to, in diabetics, 516

Saliva, parotid, zinc levels, 47
Salt, taste changes for, during pregnancy, 414
Selenium deficiency, long-term parenteral nutrition and, 549
β-Sitosterol, cholesterol absorption and, 92
Skeletal muscle, carnitine content, dietary intake and, 234
Skinfold thickness equations, validity in formerly obese, 128
Snack foods, glucose and insulin responses to, 335
Sodium, dietary intake, measurement of, 470
Sorbitol, postmenopausal calcium absorption and, 72
Soy protein, milk protein vs, in infant *Cebus* monkey, 112
Starch
dietary
fecal bulking and, 210
glucose polymer as replacement for, 891
digestion rate, in legumes, 25
Steatohepatitis, home parenteral nutrition and, 85
Steatosis, home parenteral nutrition and, 85
Sucrase, intestinal, dietary regulation of, 891
Sucrose
dietary, glucose polymers as replacement for, 891
dietary fiber and, 419
ingestion of, plasma glutamate levels after MSG loading and, 510
taste changes for, during pregnancy, 414
Sugars, glucose tolerance indices and, 151
Superoxide dismutase, intestinal, post resection (rat), 185
Sweat, iron losses in, 438

Taste, changes during pregnancy, 414
Test-weighing, for assessing milk volume intake of formula-fed infants, 367
Thermogenesis
enteral vs parenteral nutrition, in lean vs moderately obese females, 194
ephedrine/methylxanthine mixtures (mouse), 388
